SG1A

2. (S/NF/SK) VIEWER TASKING: None (079 delineated the tasking to me at the beginning of the session, without cueing). The name of the target person was not divulged to 079 until after the session. The letters used in the tasker to list the target locations (a., b., c., d.) were used as cueing to 079 instead of the location names. A fifth choice (e.) was added, which stood for "none of the above locations". Location names were not divulged to 079 at any time.
